

Make Your Home More Affordable and Efficient

Know how your home uses energy to help you discover where you might be able to save.

Colorado Average Annual Home Energy Use:

Space Heating & Cooling

- Install shades to keep sun out in summer and cold out in winter
- Weatherize to eliminate leaks \$
- Install high-efficiency heating and cooling equipment \$

Water Heating

- Set your hot water heater to no higher than 120° F and insulate your hot water pipes
- Install an Energy Star® water heater or an electric heat pump water heater \$

Appliances & Electronics

- Manage plug loads with power strips and timers
- Buy Energy Star® appliances and get rid of that old fridge or freezer \$

Lighting

- Turn off lights when leaving a room and use task lighting
- Reduce bulb wattage and switch out old incandescent bulbs for LEDs, which use less energy and last longer \$
